5 YEAR VISION

PCC seeks to improve its facilities and playing experience for all. We would like both First and Second Saturday teams to be in their Premier Divisions and the Third XI to be promoted in the Championship. We will provide competitive cricket and social cricket throughout the week in all formats.

We will seek a better local ground for our second home games and commence a junior section.

We will improve the quality of our welcome to visitors and all of our facilities so that the experience of players and supporters is improved during and after games.

Please add in the specific actions you intend to take over the next 12 months in order to work towards your 5-year vision:
